RESEARCH INTERESTS

My research is driven by the goal of developing **theoretically grounded and scalable methods** to improve neural language models in the areas of **natural language generation** and **language model alignment**. Specifically, my work aims to develop practical algorithms and systems that address the fundamental limitations of the standard paradigm of language modeling in a principled manner.

Firstly, in terms of the **choice of modeling**, my research explores model families beyond the auto-regressive models (ARMs) which possess a strong local inductive bias, to facilitate more accurate modeling of the growing volume of data. This includes practical realization of **theoretically more expressive model families**, e.g., energy-based models [2], latent variable models [6], and semi-parametric models [8].

Secondly, in terms of the **problem of learning**, my research advocates for **quality-aware learning objectives** beyond maximum likelihood estimation (MLE) which is biased towards coverage. These new objectives are theoretically grounded in probability metrics that facilitate quality assessment, including reverse KL divergence [1] and total variation distance [3] to accommodate the growth of high-quality data annotations in various forms.

EDUCATION

Tsinghua University, Beijing, China   September 2020 - Present
Ph.D. Student, Computer Science and Technology
Advisor: Minlie Huang

Tsinghua University, Beijing, China   September 2016 - July 2020
B.E., Electronic Engineering

RESEARCH EXPERIENCE	**CoAI Lab**, **Tsinghua University**	September 2020 - July 2025 (Expected)
	Ph.D. Candidate (Supervisor: Minlie Huang)	
	Alignment Group, **Zhipu AI**	March 2024 - Present
	Research Intern (Supervisor: Hongning Wang)	
	Natural Language Comuputing group, **Microsoft Research Asia**	July 2019 - July 2020
	Research Intern (Supervisors: Shaohan Huang, Furu Wei)	
TALK	**Beyond the Theoretical Limits of Language Modeling**	June 2024
	ByteDance, Seed Team	
	Towards Efficient Exact Optimization of Language Model Alignment	March 2024
	ByteDance, RAI Group	
SERVICES	**Reviewer/Program Committee**: ACL, EMNLP, NAACL, ARR	
AWARDS	**Tang Junyuan** (唐君远) **Scholarship**, Tsinghua University	2023
	Sohu Scholarship, Tsinghua University	2022
	Yang Huiyan (杨惠妍) **Scholarship**, Tsinghua University	2021
	Comprehensive Merit Scholarship, Tsinghua University	2019
	Comprehensive Merit Scholarship, Tsinghua University	2017
	Gold Medal, 32nd China Physics Olympiads (CPhO)	2015
	Distinguished Honor Roll (Top 1%), American Mathematics Contest 12 (AMC12)	2015
